

A TRADITION OF INNOVATIVE DESIGN

 **60** years of tradition

group**ceyssens**

WE CREATE

Group Ceyssens, formerly Glas Ceyssens, has grown into a versatile partner for the **B2B, project and residential markets**. Building on our expertise in glass, we now offer an integrated full-service solution covering **glass, aluminium façades, minimalistic windows, façade cladding, powder coatings and metal solutions**.

Thanks to our flexible organisation, **we are your single point of contact throughout the entire process**: from engineering and production to installation and after-sales service.

WE CREATE

Bespoke solutions and technical specials, from design through to realisation.

For architects, contractors, clients and property developers.

GLASS

Insulating glazing, interior glass, glass floors, walls and doors, structural glazing, Cleanroom glazing and glass balustrades.

For B2B, office and commercial construction, the project market and residential projects.

FAÇADES

Aluminium curtain walls, showroom glazing and façade cladding in aluminium, metal, wood, wood-look finishes, ceramics and composite materials.

For industry, office and commercial construction, the project market and residential projects.

MINIMALISTIC WINDOWS

High-end minimalist window and sliding door systems, including KELLER minimal windows®.

For the residential market, villas, lofts and high-end projects.

POWDER COATINGS

Durable, high-quality finishes for aluminium and metal.

For professional applications in construction, industry and projects.

METAL SOLUTIONS

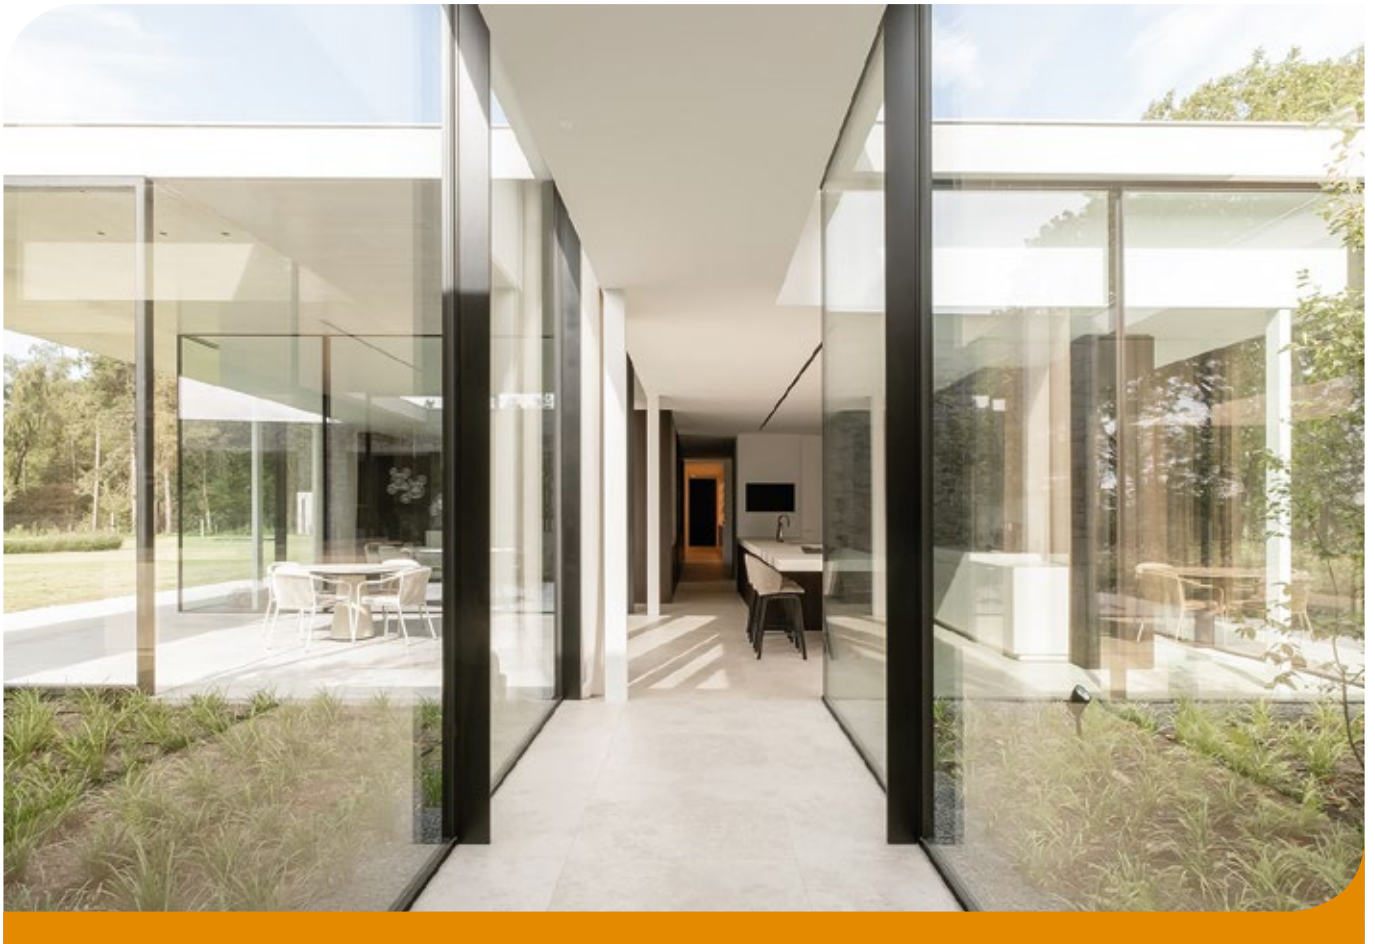

Bespoke solutions in steel and other metals for façade, glass, interior and architectural applications.

For B2B, commercial construction, the project market and residential projects.

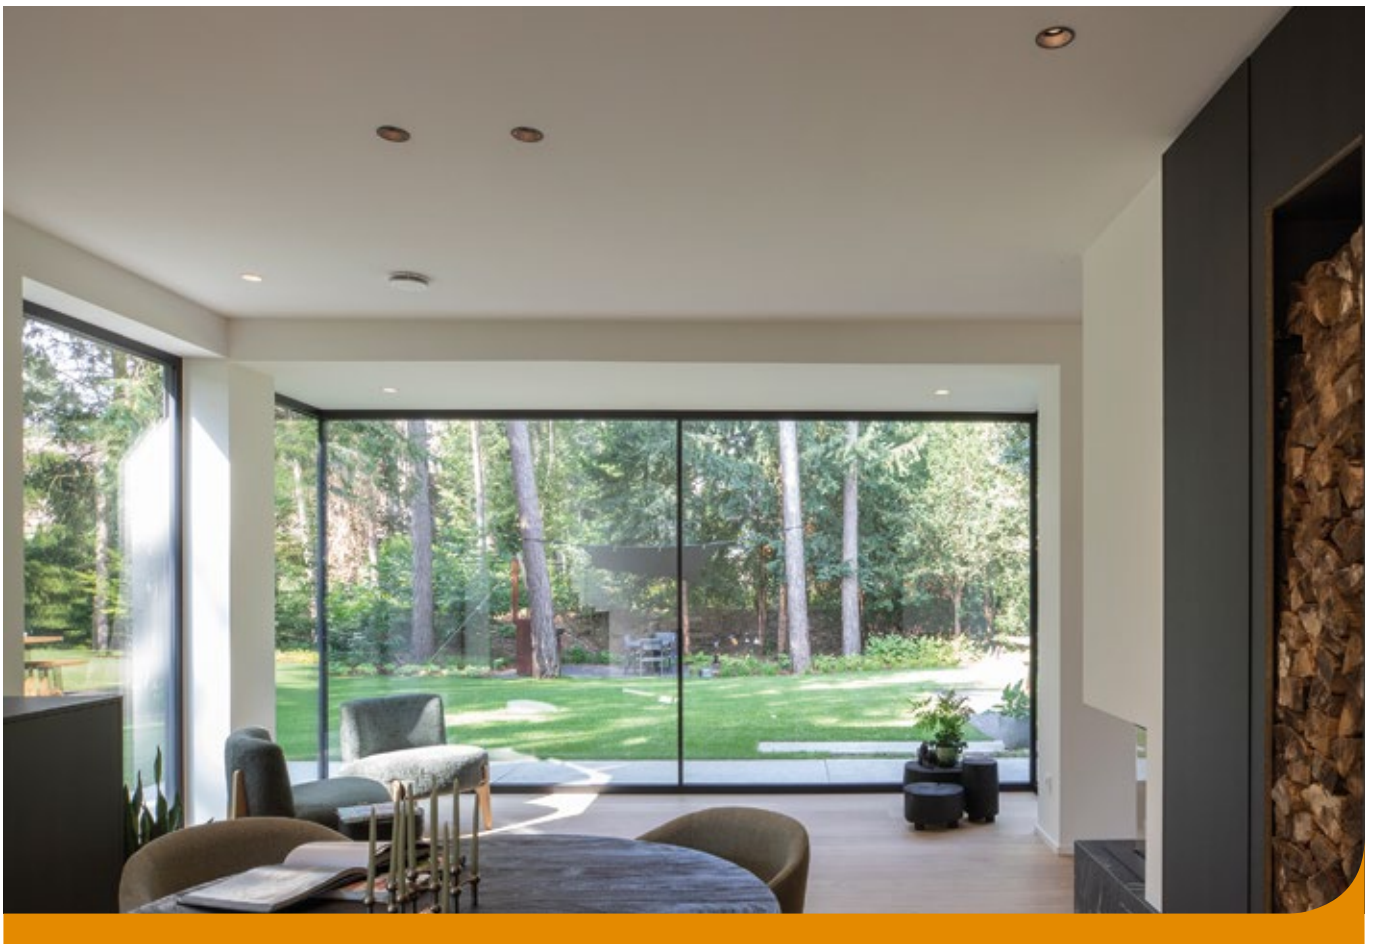

From concept to realisation:

Group Ceyssens combines expertise, production and installation under one roof.

WE CREATE YOUR VIEW...

We create your view means much more to us than simply bringing aesthetically striking and technically optimised glass or façade solutions to life. We constantly push the boundaries of what is possible, no matter how impossible a project may seem at first sight. Always driven by a continuous hunger for innovation.

Thanks to the flexibility and expertise of Group Ceyssens, we guide you and your clients through the entire process: from the initial design and engineering to production, installation and after-sales service. Together, we turn ambitious and prestigious architectural projects into reality. As an independent family-owned company based in Heusden-Zolder, Belgium, we have been building on our expertise for more than 60 years. Today, a team of 180 dedicated employees brings craftsmanship, innovation and bespoke solutions together every day.

Because for us, it is ultimately about more than glass, façades and technology.

It's all about the people you meet and the things you create together.
